

Kiss Goodbye To MS

Together we are one
step closer to finding
the cure for MS

Our mission is simple. To find a cure for multiple sclerosis. And we won't stop until we do.

The average age of diagnosis with MS is only 30 years old and 3 out of 4 people with MS are women. MS is an unpredictable disease that effects everyone differently. But with research into better treatments, prevention and the cure, there is hope for the 23,000 Australians living with MS.

Kiss Goodbye to MS is a campaign about hope, that together we can raise funds to accelerate MS research. We are calling on you to come together and raise funds that will bring us one step closer to the cure.

Let's Kiss Goodbye to MS!
